

# KABHIN S

Aspiring Software Development Engineer | Java Full Stack Development  
Karur, Tamil Nadu | 9626959448 | kabhins0612@gmail.com | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

## PROFESSIONAL SUMMARY

Final-year Electronics and Communication Engineering student with a strong foundation in Java Full Stack Development (Spring Boot, React, REST APIs, Hibernate/JPA). Hands-on experience building and shipping four full-stack projects independently and in teams, plus a full-stack development internship. Eager to bring strong problem-solving skills and a fast learning curve to a Software Development Engineer role.

## EDUCATION

|                                                                                                                      |             |
|----------------------------------------------------------------------------------------------------------------------|-------------|
| <b>B.E. Electronics and Communication Engineering</b><br>M Kumarasamy College of Engineering, Karur <b>CGPA: 6.9</b> | 2023 – 2027 |
| <b>Higher Secondary Education (12th)</b><br>Bharani Park Matriculation Higher Secondary School, Karur <b>67%</b>     | 2022 – 2023 |

## TECHNICAL SKILLS

**Languages & Core:** Java, JavaScript, HTML, CSS, SQL (MySQL)  
**Frameworks & Databases:** Spring Boot, Hibernate/JPA, React, REST APIs, MongoDB, Bootstrap, Firebase  
**Tools:** VS Code, Cursor AI, Git/GitHub  
**Soft Skills:** Problem-Solving, Communication & Team Collaboration, Leadership, Adaptability, Time Management

## PROJECTS

|                                                                                                                                                                                                                                                                                                              |          |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| <b>Bus Booking System</b>   Spring Boot, React, Hibernate / JPA, REST APIs · Team of 3<br>• Architected a full-stack Java trip management system with real-time scheduling and booking control.<br>• Built RESTful APIs and used Hibernate/JPA for efficient data management and secure user authentication. | Jun 2025 |
| <b>Attendance Maintenance System</b>   Spring Boot, React, Firebase, ESP32 · Team of 1<br>• Built an AI-powered attendance system with biometric authentication and real-time Firebase sync.<br>• Integrated ESP32 hardware with a Spring Boot/React application via RESTful APIs.                           | Dec 2025 |
| <b>Sleep Disorder Detection System</b>   React, Flask, Machine Learning (Random Forest) · Team of 1<br>• Built a full-stack web app that analyzes health/lifestyle data to predict sleep apnea risk.<br>• Applied a Random Forest ML model and delivered basic lifestyle recommendations to users.           | Jan 2026 |
| <b>Orphanage Management System</b>   Spring Boot, React, MongoDB · Team of 1<br>• Developed a full-stack system for orphan and donor record management using Hibernate/JPA.<br>• Improved administrative workflow efficiency through streamlined data handling.                                              | Jun 2024 |

## INTERNSHIP

|                                                                                                                                                                                                                                                                         |          |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| <b>Full Stack Development Intern — NetGene Technologies</b><br>• Developed and enhanced full-stack web applications; worked across front-end and back-end layers.<br>• Participated in application testing, debugging, and applied software development best practices. | Jun 2026 |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|

## CERTIFICATE

- Certified in Junior Level Typing (2023).
- Certified in Full Stack Development.
- Certified in 8-level of Hindi exam. (Dakshina Bharat Hindi Prachar Shaba)
