

KABHIN S

Aspiring Software Development Engineer | Java Full Stack Development

Karur, Tamil Nadu | 9626959448 | kabhins0612@gmail.com | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Final-year Electronics and Communication Engineering student with a strong foundation in Java Full Stack Development (Spring Boot, React, REST APIs, Hibernate/JPA). Hands-on experience building and shipping four full-stack projects independently and in teams, plus a full-stack development internship. Eager to bring strong problem-solving skills and a fast learning curve to a Software Development Engineer role.

EDUCATION

B.E. Electronics and Communication Engineering M Kumarasamy College of Engineering, Karur CGPA: 6.9	2023 – 2027
Higher Secondary Education (12th) Bharani Park Matriculation Higher Secondary School, Karur 67%	2022 – 2023

TECHNICAL SKILLS

Languages & Core: Java, JavaScript, HTML, CSS, SQL (MySQL)
Frameworks & Databases: Spring Boot, Hibernate/JPA, React, REST APIs, MongoDB, Bootstrap, Firebase
Tools: VS Code, Cursor AI, Git/GitHub
Soft Skills: Problem-Solving, Communication & Team Collaboration, Leadership, Adaptability, Time Management

PROJECTS

Bus Booking System - Spring Boot, React, Hibernate/JPA, REST APIs · Team of 3 • Architected a full-stack Java trip management system with real-time scheduling and booking control. • Built RESTful APIs and used Hibernate/JPA for efficient data management and secure user authentication.	Jun 2025
Attendance Maintenance System - Spring Boot, React, Firebase, ESP32 · Team of 1 • Built an AI-powered attendance system with biometric authentication and real-time Firebase sync. • Integrated ESP32 hardware with a Spring Boot/React application via RESTful APIs.	Dec 2025
Sleep Disorder Detection System React, Flask, Machine Learning (Random Forest) · Team of 1 • Built a full-stack web app that analyzes health/lifestyle data to predict sleep apnea risk. • Applied a Random Forest ML model and delivered basic lifestyle recommendations to users.	Jan 2026
Orphanage Management System - Spring Boot, React, MongoDB · Team of 1 • Developed a full-stack system for orphan and donor record management using Hibernate/JPA. • Improved administrative workflow efficiency through streamlined data handling.	Jun 2024

INTERNSHIP & CERTIFICATIONS

Full Stack Development Intern — NetGene Technologies • Developed and enhanced full-stack web applications; worked across front-end and back-end layers. • Participated in application testing, debugging, and applied software development best practices. • Certified in Junior Level Typing (2023).	Jun 2026
